Philip G. Wyels Assistant Chief Counsel Office of Chief Counsel State Water Resources Control Board P.O. Box 100 Sacramento, CA 95812-0100

RE: In the Matter of the Sacramento Regional County Sanitation District's Petition for Review of Action and Failure to Act by Regional Water Quality Control Board, Central Valley Region, in Adopting Waste Discharge Requirements Order No. R5-2010-0114 (NPDES No. CA0077682) and Time Schedule Order No. R5-2010-0115 for Sacramento Regional County Sanitation District, Sacramento Regional Wastewater Treatment Plant SWRCB/OCC File No. A-2144(a)

Dear Mr. Wyels:

On January 10, 2011, the Sacramento Regional County Sanitation District (District or SRCSD) submitted a petition for review of certain specified provisions contained in Waste Discharge Requirements Order No. R5-2010-0014 (NPDES No. CA0077682) (Permit) and Time Schedule Order No. R5-2010-0015 (TSO) (SRCSD Petition for Review).

The purpose of this letter is to notify you of SRCSD's *partial* withdrawal of the subject Petition for Review. The withdrawal is limited exclusively to specific matters related to effluent limitations for diazinon and chlorpyrifos.

In the SRCSD Petition for Review, the District requested the State Water Board issue an order that would, in part, vacate the combined final effluent limitation for chlorpyrifos and diazinon, remand the Permit and TSO to the Central Valley Regional Water Quality Control Board (Regional Board) to make related, consistent, and conforming changes for the final effluent limitation for chlorpyrifos and diazinon contained in section IV.A.1.1 of the Permit to allow for dilution, and make related, consistent, and conforming changes to the interim effluent limitations contained in the TSO insofar as they relate to chlorpyrifos and diazinon. (SRCSD Petition for Review, pp. 6-7.) A statement of the reasons as to why the Permit and TSO provisions related to chlorpyrifos and diazinon were inappropriate and improper was provided in the accompanying Statement of Points and Authorities in section IX.D. (SRCSD Petition for Review, pp. 172-173.)

Philip G. Wyels RE: SWRCB/OCC File No. A-2144(a) March 8, 2011

Page 2

The District hereby withdraws its specific requests for State Water Board review and action with respect to the final effluent limitation for chlorpyrifos and diazinon contained in section IV.A.1.1 of the Permit and the interim effluent limitations contained in the TSO insofar as they relate to chlorpyrifos and diazinon. Accordingly, the State Water Board need no longer consider or review, in connection with the SRCSD Petition for Review, the final effluent limitation for chlorpyrifos and diazinon, the associated interim effluent limitations contained in the TSO, and section IX.D of the Statement of Points and Authorities. Further, should the State Water Board issue a notification letter in accordance with section 2050.5(a) of title 23 of the California Code of Regulations, the State Water Board could appropriately direct the Regional Board, and other interested persons, that any response to the SRCSD Petition for Review be limited to the remaining issues identified in the Petition and that a response to the request for review of the final effluent limitation for chlorpyrifos and diazinon, interim effluent limitations contained in the TSO insofar as they relate to chlorpyrifos and diazinon, and the associated Statement of Points and Authorities in section IX.D is no longer necessary.

SRCSD continues to assert all other issues in the SRCSD Petition for Review.

Please contact Theresa Dunham or me if you have any questions or require further information.

Very truly yours,

FanOS, S_

Paul S. Simmons
